We will be happy to add more presenters. If you want to be the presenter please let us know.

Next Meeting Details – 22/May/21

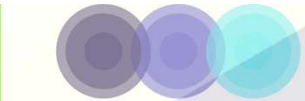
- Link To Register.
- Register Link Expires – 21 May 2021 (03:00 PM IST)
- Topic – Open Discussion.
- Time – 09:30 PM to 10:30 PM (IST)
- Questions – Add Here.

QUESTION 167

#bcopendiscussion

- How to copy a company without the transaction data?
- This forum suggests that it cannot be done without a little help from code. But I want to do this in a more functional way.
- https://community.dynamics.com/business/f/dynamics-365-business-central-forum/390753/can-i-copy-a-company-without-the-transaction-data

QUESTION 168



What is the limitation of the Team member license?

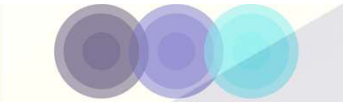
QUESTION 169

#bcopendiscussion

Hi Saurav, Is it possible to use Table / Fields from other extensions without having dependencies but with help of RecRef ?

If yes, can you, please guide how can this be achieved ?

QUESTION 170



I have window 11 home version i like to install BC and face the issue of IIS "Setup Components

The component was rolled back.
Web Server Components

IIS prerequisites for Web Server Components
An error has occurred while trying to install required dependencies for Web Server components.
For more information about the error, see the
%TMP%\Microsoft.Dynamics.Nav.WebClient.DependencyInstaller.log file.
For more information about how to install Microsoft Dynamics 365 Business Central Web client, see the Microsoft Dynamics 365 Business Central Help
"

I install IIS services but still get same error.

I thanks in advance Please help me out.

QUESTION 171

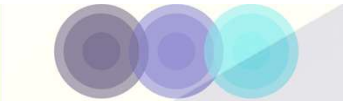
#bcopendiscussion

Our client is using the 2009 R2 client.

One of the user opened the database with newer client and converted the database.
How can we restrict users to convert the Database to newer version.

If we remove the db_owner permission and grant the data_reader and data_writer, the user is getting the error as "you do not have permission to read the object table.

QUESTION 172



Hi Saurav , How can we add a file from Base64 String received from API to a Media data type preferably in Document Attachment (Table 1173)

QUESTION 173

Through Report Extensions how can I set the value for default options that are already available on Request Page?

For eg set "Print Company Address" Boolean to true by default on req page of Posted Sales Shipment report using Report Extension.

QUESTION 174

#bcopendiscussion

How to do Custom Workflow Approval

QUESTION 175

How to develop a custom approval workflow in Business Central AL

QUESTION 176

#bcopendiscussion

all basic question for technical of Navision& BC

QUESTION 177

#bcopendiscussion

Query JSON Codeunit API?

I have written a sample codeunit 50100 function ReadJson2 to browse a JSON file, and this populates the customer masters into a staging table in BC and is working as expected. But when I try to expose the same codeunit as Web Service and try to test my function using Postman, I am getting the below error. However the JSON example above is requested in the postman body and I am expecting the 3rd party API call to populate the staging data.

API Request:
{“Customers”:[{“customerNo”:”16933”,”customerName”:”ABC Private Limited”,”phone”:{“phoneCountryCode”:”+91”,”phoneCountryCode”:”9849098490”}},{“customerNo”:”17001”,”customerName”:”DEF Private Limited”,”phone”:{“phoneCountryCode”:”+91”,”phoneCountryCode”:”9849098491”}}]}

API Response:
{“error”:{“code”:”BadRequest”,”message”:”One or more errors occurred. CorrelationId: ab3dce35-f7b9-45ed-8ea7-7151bef5353e.”}}

As per the understanding from Microsoft documentation (https://learn.microsoft.com/en-us/dynamics365/business-central/dev-itpro/developer/devenv-creating-and-interacting-with-odatav4-unbound-action), example Data ({“inputJson”: “{\”str\”:\”Hello world!\”,\”confirm\”:true}”}) .and has been advised to follow the request body in Postman which is working fine for batch request. But 3rd party s not agreeing to send with slash separator and they require the input to be sent as like JSON array request through Text parameter.

Kindly help or advise how do I get solution to meet the requirement in BC. Appreciate if you can share any sample working example which meets my criteria. Attaching

the objects for references and also the postman collection. S
