QUESTION 164

#bcopendiscussion

Hi sir,

Currently we are working on BC Upgrade from Nav2016(IN) to BC20. I am facing problem in Sales price and purchase price data. Because In Nav2016 they have(Customer Database) added Location code as primary key combination in both purchase&sales price tables. In BC these tables are Obsoleted already. So how can we move this data to BC20?

QUESTION 165

#bcopendiscussion

Can I set the approver limit along with the sequence? I have four users in my team, and the requester has a limit to release the PO within 1000. If it is more than 1000, I have two users whose limit is up to 5000, and if approves, the PO can be released. How to configure in BC?

USER EXPERIENCES

#bcopendiscussion

Switch companies across environments

Visual cues in the app bar help to quickly understand which company and environment you are currently working in.

Search for companies you have access to, grouped by environment including production and sandbox environments within your organization.

Switch company in the current browser tab or open the selected company in a new tab to multitask or compare data side by side.

Modern Action Bar

Navigate menu Retired.

Personalization will now allow to move Actions.

REPORTING

#bcopendiscussion

Run, send reports from the request page

Choose the report layout on request page

Use new dedicated APIs for financial reporting

PRODUCTIVE WITH MICROSOFT 365

#bcopendiscussion

Configure OneDrive integration

Delegated admins can edit in Excel
