# QUESTION 143

#bcopendiscussion

How would you set up a custom service account for NAV ?

Disclaimer :

I went through MS official documentation :

<https://docs.microsoft.com/en-us/dynamics-nav/provisioning-the-microsoft-dynamics-nav-server-account>

Granted all permissions to the service account and enabled it to log on a service yet NAV service tier is not starting

# QUESTION 144

#bcoendiscussion

The Default Profile say ABC is customized using the Profile configuration mode.

A new action button is created on sales order after Profile configuration.

Now go to the default profile ABC, in Profile configurator mode, and try to create a new group and add the new icon using customize ribbon.

The new Group could not be created, unless the Default setting is restored in Customize ribbon.

Is there any way we can create a new group & add the new icon without restoring to default settings in Customize ribbon mode?

# QUESTION 145

#bcopendiscussion

- ❑ I am trying to merge pdfs attached in document attachment. But merging of pdf is not stable every time I am getting the different output. My code should be able to merge 20 pdfs and able produce 1 pdfs from that.

❑ <https://github.com/gonzaloriosley/Merge-PDF-Business-Central>

# QUESTION 146.

#bcopendiscussion

Hi Saurav,

Is it possible to extend the My Notification page, to create a new entry for a custom notification, and enable/disable it based on the page fields

# NOTIFICATION.

#bcopendiscussion

Scenario –

- ▶ **Customer Requires a Notification when Resource is Selected in Sales Transaction.**
- ▶ **If Resource don't have Social Security No. Defined, the Notification Should be visible.**
- ▶ **User Should be able to activate / deactivate the notification.**

# STEPS

#bcoappendiscussion

Scenario –

- ▶ **Create a Notification.**
- ▶ **Set Data & Get Data With Notification.**
- ▶ **Add Actions To Notification.**
- ▶ **Add to User Notification.**

Data Type Used –

Notification

Notification Scope
