Get the AL Language extension in prerelease versions on Visual Studio Code Marketplace

AL Language extension for Microsoft Dynamics 365 Business Central

Microsoft  microsoft.com |  288,706 |  (19)

Development tools for Dynamics 365 Business Central

Set File Icon Theme

Disable

Uninstall 

Switch to Release Version

This extension is enabled globally.

Prerelease versions of the AL Language extension for Dynamics 365 Business Central are currently only available as part of Business Central Insider builds. This requires partners to regularly download Insider builds to get the latest prerelease AL Language extension. This situation can cause compatibility issues when Business Central launches a preview close to general release because it's not clear to partners that they need to download the latest AL Language extension version from the Insider build.
